ELECTRIC AND GAS METER REGISTRATIONS

1960

The terms "Electric Meter Registrations" and "Gas Meter Registrations" are used throughout this report in reference to the number of meters in service as reported by companies engaged in the sale of electricity or gas in applications for certificate of registration. Each company is required to obtain a certificate of registration from the Department of Trade and Commerce, Standard Branch, not later than the 31st day of March in each year, for all meters in service at the end of the previous year.

Prior to 1956 the Electric and Gas Meter Registrations report was published by the Standards Division of the Department of Trade and Commerce in the "Report of the Standards Division", which covered the fiscal year ending on March 31. Since 1957 the report has been for the calendar year. A table showing electric meter registrations by province and company was first compiled for the 1958 report.

The number of meters reported in service by companies engaged in the sale of electricity in Canada rose to 5,317,704 at December 31, 1960 from 5,157,495 one year earlier, an increase of 160,209 or 3.1 p.c. Meters employed in measuring electricity consumption at urban domestic rates numbered 3,423,137 as against 3,307,817 in 1959. Meters classed as urban commercial rose from 443,697 to 457,479 while those classed as urban power advanced to 106,205 from 104,582. Total meters in urban use went up 3.4 p.c. to 3,986,821 from 3,856,096. Of a total of 1,330,883 reported in rural service, 795,053 were classed as domestic, 423,732 as farm, 99,033 as commercial and 13,065 as power. Comparable figures for 1959 are as follows: total rural, 1,301,399; domestic, 780,502; farm, 411,991; commercial, 97,155; and power, 11,751.

A total of 1,269,365 natural, manufactured and other gas meters was reported in service at the end of 1960, an increase of 5.8 p.c. over the 1,199,743 recorded in 1959. At the year end only 25,041 meters remained in manufactured gas service, as compared with 32,799 in 1959 and 610,096 in 1950, the year of peak concentration. Meters in natural gas service rose 6.0 p.c. to 1,232,215 from 1,162,678. In Manitoba the increase in natural gas meters was almost 34 per cent; in Saskatchewan, 18.5 per cent; in British Columbia, 11.7 per cent; in Alberta, 5.6 per cent; and in Ontario, 4 per cent. Manufactured and LP.G. air gases were being used in only three provinces - British Columbia, Ontario and Quebec at the year end.

August 15, 1961.

ELECTRICITY AND GAS INSPECTION DISTRICTS

For purposes of inspection under the Electricity Inspection Act and the Gas Inspection Act, the provinces of the Dominion have been divided into the following districts:

District	District composed of

ELECTRIC AND GAS METER REGISTRATIONS

1961

The terms "Electric Meter Registrations" and "Gas Meter Registrations" are used throughout this report in reference to the number of meters in service as reported by companies engaged in the sale of electricity or gas in applications for certificate of registration. Each company is required to obtain a certificate of registration from the Department of Trade and Commerce, Standard Branch, not later than the 31st day of March in each year, for all meters in service at the end of the previous year.

Prior to 1956 the Electric and Gas Meter Registrations report was published by the Standards Division of the Department of Trade and Commerce in the "Report of the Standards Division", which covered the fiscal year ending on March 31. Since 1957 the report has been for the calendar year. A table showing electric meter Registrations by province and company was first compiled for the 1958 report.

The number of meters reported in service by companies engaged in the sale of electricity in Canada rose to 5,491,388 at December 31, 1961 from 5,317,704 one year earlier, an increase of 173,684 or 3.3 p.c. Meters employed in measuring electricity consumption at urban domestic rates numbered 3,573,815 as against 3,423,137 in 1960. Meters classed as urban commercial rose from 457,479 to 477,308 while those classed as urban power declined from 106,205 to 102,965. Total meters in urban use went up 4.2 p.c. to 4,154,088 from 3,986,821. Of a total of 1,337,300 meters reported in rural service, 797,040 were classed as domestic, 427,588 as farm, 99,841 as commercial and 12,831 as power. Comparable figures for 1960 are as follows: total rural, 1,330,883; domestic, 795,053; farm, 423,732; commercial, 99,033; and power, 13,065.

A total of 1,347,670 natural, manufactured and other gas meters was reported in service at the end of 1961, an increase of 6.2 p.c. over the 1,269,365 recorded in 1960. At the year end only 18,841 meters remained in manufactured gas service, as compared with 25,041 in 1960 and 610,096 in 1950, the year of peak concentration. Meters in natural gas service rose 6.6 p.c. to 1,314,057 from 1,232,215. In Manitoba the increase in natural gas meters was 26.3 per cent; in Saskatchewan, 12.4 per cent; in British Columbia, 8.7 per cent; in Alberta, 5.6 per cent; and in Ontario, 6.8 per cent. Manufactured and LP.G. air gases were being used in only three provinces - British Columbia, Ontario and Quebec at the year end. Bottled propane gas was used in all provinces except Newfoundland and Yukon - Northwest Territories.

ELECTRIC AND GAS METER REGISTRATIONS

1962

The terms "Electric Meter Registrations" and "Gas Meter Registrations" are used throughout this report in reference to the number of meters in service as reported by companies engaged in the sale of electricity or gas in applications for certificate of registration. Each company is required to obtain a certificate of registration from the Department of Trade and Commerce, Standards Branch, not later than the 31st day of March each year, for all meters in service at the end of the previous year.

Prior to 1956 the Electric and Gas Meter Registrations report was published by the Standards Division of the Department of Trade and Commerce in the "Report of the Standards Division", which covered the fiscal year ending on March 31. Since 1957 the report has been for the calendar year. A table showing electric meter registrations by province and company was first compiled for the 1958 report.

The number of meters reported in service by companies engaged in the sale of electricity in Canada rose to 5,659,848 at December 31, 1962 from 5,491,388 one year earlier, an increase of 168,460 or 3.0 p.c. Meters employed in measuring electricity consumption at urban domestic rates numbered 3,688,697 as against 3,573,815 in 1961. Meters classed as urban commercial rose from 477,308 to 485,509 and those classed as urban power increased from 102,695 to 105,822. Total meters in urban use went up 2.9 p.c. to 4,280,028 from 4,154,088. Of a total of 1,379,820 meters reported in rural service, 838,312 were classed as domestic, 425,354 as farm, 102,206 as commerical and 13,948 as power. Comparable figures for 1961 are as follows: total rural, 1,337,300; domestic, 797,040; farm, 427,588; commercial, 99,841; power, 12,831. Many utilities do not distinguish between rural domestic and farm meters so the report is not too reliable unless the two categories are grouped. The decrease in the number of farm meters reported in 1962 is the result of a re-classification in British Columbia.

A total of 1,440,344 natural, manufactured and other gas meters was reported in service at the end of 1962, an increase of 6.9 p.c. over the 1,347,670 recorded in 1961. At the year end only 17,396 meters remained in manufactured gas service, as compared with 18,841 in 1961 and 610,096 in 1950, the year of peak concentration. Meters in natural gas service rose 7.2 p.c. to 1,408,543 from 1,314,057. Manufactured and L.P.G. air gases were being used in only three provinces - British Columbia, Ontario and Quebec at the year end. Bottled propane gas was used in all provinces except Newfoundland and Yukon - Northwest Territories.

ELECTRICITY AND GAS INSPECTION DISTRICTS

ELECTRIC AND GAS METER REGISTRATIONS

1963

The terms "Electric Meter Registrations" and "Gas Meter Registrations" are used throughout this report in reference to the number of meters in service as reported by companies engaged in the sale of electricity or gas in applications for certificate of registration. Each company is required to obtain a certificate of registration from the Department of Trade and Commerce, Standards Branch, not later than the 31st of March each year, for all meters in service at the end of the previous year.

Prior to 1956 the Electric and Gas Meter Registrations report was published by the Standards Division of the Department of Trade and Commerce in the "Report of the Standards Division", which covered the fiscal year ending on March 31. Since 1957 the report has been for the calendar year. A table showing electric meter registrations by province and company was first compiled for the 1958 report.

The number of meters reported in service by companies engaged in the sale of electricty in Canada rose to 5,811,443 at December 31, 1963 from 5,659,848 one year earlier, an increase of 151,595 or 2.7 p.c. Meters employed in measuring electricity consumption at urban domestic rates numbered 3,793,897 as against 3,688,697 in 1962. Meters classed as urban commercial rose from 485,509 to 498,957 and those classed as urban power increased from 105,822 to 107,405. Total meters in urban use went up 2.8 p.c. to 4,400,259 from 4,280,028. Of a total of 1,411,184 meters reported in rural service, 871,121 were classed as domestic, 422,792 as farm, 103,381 as commercial and 13,890 as power. Comparable figures for 1962 are as follows: total rural, 1,379,820; domestic 838,312; farm 425,354; commercial 102,206; power 13,948. Many utilities do not distinguish between rural domestic and farm meters so the report is not too reliable unless the two categories are grouped.

A total of 1,518,285 natural, manufactured and other gas meters was reported in service at the end of 1963, an increase of 5.4 p.c. over the 1,440,344 recorded in 1962. At the year end only 17,384 meters remained in manufactured gas service, as compared with 17,396 in 1962, and 610,096 in 1950, the peak year. Meters in natural gas service rose 5.4 p.c. to 1,485,042 from 1,408,543. Manufactured and L.P.G. - air gases were being used in only three provinces - British Columbia, Ontario and Quebec at the year end.

For the first time in this series, table 6 is produced with the use of the "Standard Geographical Classification Manual". This manual is intended to serve as a general framework for publishing statistical information. It presents a classification system for provinces, counties or census divisions, municipalities and unorganized areas within each county or census division. We have in this publication made use of six of the nine digit code numbers from this manual.

The first two digits of the code number designate the province and areas outside, coded as follows:

10. Newfoundland
11. Prince Edward Island
12. Nova Scotia
13. New Brunswick
24. Quebec
35. Ontario
46. Manitoba
47. Saskatchewan
48. Alberta
59. British Columbia
6- Yukon
6+ Northwest Territories

The third and fourth digits indicate the counties or census divisions within each province and in the Yukon and Northwest Territories, the districts.

The fifth and sixth digits constitute the municipality or other local area code within counties or census divisions. The nature of these local areas differs slightly from province to province but are coded as uniformly as possible in such a system. Numbers from 01 to 79 and 91 to 98 designate urban municipalities, rural municipalities, improvement districts, census subdivisions and similar areas. Numbers from 80 to 89 designate Indian Reserves, and the code 90 designates an unorganized part or parts. The code 99 has been allocated to define balance of meters in each county or census division which have not been coded elsewhere.

ELECTRICITY AND GAS INSPECTION DISTRICTS

For purposes of inspection under the Electricity Inspection Act and the Gas Inspection Act, the provinces of the Dominion have been divided into the following districts:

District	District composed of
Belleville, Ont.	Counties of Durham, Frontenac, Haliburton, Hastings, Leeds (Exclusive of the towns of Athens, Newboro and Westport), Lennox and Addington, Northumberland, part of Peterborough, Prince Edward, Victoria and part of Renfrew and York.
Calgary, Alta.	All that part of the Province of Alberta lying south of the northerly boundary of Township No. 37.
Charlottetown, P.E.I. ...	Province of Prince Edward Island.
Edmonton, Alta.	All that part of the province of Alberta lying north of the northerly boundary of Township No. 37, and the Northwest Territories.
Fort William, Ont.	Judicial Districts of Kenora, Rainy River and Thunder Bay.
Halifax, N.S.	Province of Nova Scotia.
Hamilton, Ont.	Counties of Brant, Haldimand, Halton, Lincoln, Norfolk, Waterloo, Welland, and Wentworth, and part of Dufferin, Elgin, Huron, Oxford, Perth and Wellington.
Kamloops, B.C.	(Now listed under Penticton.)
London, Ont.	Counties of Bruce, Elgin, Essex, Huron, Kent, Lambton, Middlesex, Oxford and Perth, and part of Grey, Norfolk, Waterloo and Wellington.
Montreal, P.Q.	Counties of Arthabaska, Bagot, Brome, Chambly, Compton, Drummond, Frontenac, Iberville, Jesus Island, Labelle, Laprairie, L'Assomption, Missisquoi, Montcalm, Montraal Island, Napierville, Nicolet, Richelieu, Richmond, Rouville, St-Hyacinthe, St-Jean, Shefford, Sherbrooke, Soulanges, Stanstead, Terrebonne, Verchères, Wolfe and Yamaska.
Ottawa, Ont.	That part of the Judicial District of Nipissing lying South and East of and including the Townships of Ballantyne, Boyd, Cameron, Pentland and Wilkes, the Counties of Carleton, Dundas, Glengarry, Grenville, Lanark, Prescott, Renfrew, Russell and Stormont, and the towns of Athens, Newboro and Westport in the County of Leeds, and part of Frontenac and Hastings in the Province of Ontario; and the Counties of Argenteuil, Gatineau, Hull, Labelle, L'Assomption, Montcalm, Papineau, Pontiac, Soulanges, Terrebonne, Vaudreuil and part of Deux Montagnes in the Province of Quebec.
Penticton, B.C.	That part of the mainland of the Province of British Columbia bounded by the 121st Meridian on the West and the Alberta Boundary on the East and the 52nd Parallel of Latitude on the North and all Towns on the mainland of British Columbia served by the Southern Interior Meter Section of the British Columbia Power Commission and the Inland Natural Gas Company.
Quebec, P.Q.	Counties of Beauce, Bellechasse, Bonaventure, Charlevoix-Est, Charlevoix-Ouest, Chicoutimi, Gaspé-Est, Gaspé-Ouest, Iles-de-la-Madeleine, Kamouraska, Lac-St-Jean Est, Lac-St-Jean Ouest, Levis, L'Islet, Lotbinière, Matane, Matapedia, Mégantic, Montmagny, Montmorency 1, Montmorency 2, Portneuf, Quebec, Rimouski, Rivière du Loup, Saguenay, Témiscouata, and part of Beauharnois.
Regina, Sask.	Province of Saskatchewan.
Saint John, N.B.	Province of New Brunswick.
St. John's, Nfld.	Province of Newfoundland.
Sudbury, Ont.	Judicial Districts of Algoma, Cochrane, Manitoulin, Sudbury and Timiskaming, and part of the Judicial District of Nipissing lying North and West of the Townships of Ballantyne, Boyd, Cameron, Pentland and Wilkes and part of the district of Parry Sound in the Province of Ontario and part of the Counties of Abitibi and Temiscamingue in the Province of Quebec.
Trois Rivières, P.Q.	Counties of Abitibi, Arthabaska, Beauce, Bellechasse, Berthier, Chambly, Champlain, Chateauguay, Compton, Deux-Montagnes, Dorchester, Drummond, Frontenac, Huntingdon, Joliette, L'Assomption, Lévis, L'Islet, Lotbinière, Maskinongé, Mégantic, Montcalm, Montmagny, Nicolet, Portneuf, Québec, Richelieu, Richmond, Sherbrooke, St-Hyacinthe, St-Maurice, Terrebonne, Verchères, Wolfe and Yamaska Beauharnois, Jesus Island, Laprairie, Napierville and St. Jean.
Toronto, Ont.	Judicial Districts of Muskoka, Parry Sound, and the Counties of Dufferin, Durham, Grey, Ontario, Peel, Simcoe, Victoria, Wellington, York, and part of Bruce, Haliburton, Halton, Huron, part of Peterborough and Perth Counties and Nipissing District.
Vancouver, B.C.	That part of the mainland of the Province of British Columbia except the area bounded by the 121st Meridian on the West and the Alberta Boundary on the East and the 52nd Parallel of Latitude on the North and all Towns on the mainland of British Columbia served by the Southern Interior Meter Section of the British Columbia Power Commission and the Inland Natural Gas Company; and the Yukon Territory.
Winnipeg, Man.	Province of Manitoba.
